SUMMARY

Highly committed IT specialist and current student pursuing a Bachelor's in Information Technology with a specialization in Networks. Proficient in hardware diagnostics, infrastructure administration, and complex technical resolution. Leveraging core competencies developed through Computer System Servicing to navigate evolving landscapes through adaptive research and innovative problem-solving.

TECHNICAL SKILLS

Networking & Hardware

- Network troubleshooting
- Routing and switching
- Physical network topology setup
- Hardware diagnostics
- PC assembly and maintenance
- System configuration and support

Programming & Web

- Python
- HTML/CSS

IT Support

- Technical troubleshooting
 - System maintenance
 - Hardware and software support
 - Adaptive research and problem-solving
-

WORK EXPERIENCE

IT Intern | PFDA – GenSan Fishport

February 2026 – May 2026

- Provided hands-on network troubleshooting and IT support within an industrial government facility environment.
 - Assisted with hardware diagnostics and system maintenance.
 - Supported daily technical operations and resolved infrastructure-related issues.
 - Worked with networking equipment and endpoint systems.
-

EDUCATION

Bachelor of Science in Information Technology

Major in Networks

2021 – Present

Fatima National Senior High School

TVL Track – Computer System Servicing

2019 – 2021

Fatima National High School

Junior High School

2015 – 2019

Upper Tambler Elementary School II

2009 – 2015

CERTIFICATIONS & CREDENTIALS

- GCP Cloud Network Engineer
 - GCP Professional Cloud Architect
 - GCP Digital Transformation
 - AI Gemini SDLC
 - DEVCON Certifications
-

ADDITIONAL INFORMATION

- Strong interest in networking, cloud technologies, and IT infrastructure.
 - Quick learner with adaptive research skills.
 - Experienced in troubleshooting both hardware and software-related issues.
 - Comfortable working in team-based and fast-paced technical environments.
-
